Search light	MT9106 1795 32	\$1,527.23

Summary

Ideal for night boating - with joystick for total control!

The NARVA 24V Dual Speed LED Search Lamp features dual speed control which allows you to switch between fast beam for sweeping an area or slow beam for doing a more precise search. It's a powerful 50w lamp with 360° rotation and 120° tilt and a brilliant 5000lm output. Made from ASA resin plastic housing and a cast aluminium heat sink, this weatherproof and UV resistant search lamp is specifically built to withstand the harsh marine elements.

Perfect for smaller boats doing search-and-rescue operations - where reliability and energy efficiency is essential.

Features:

- Model number: 72808
- 10 x 5w high powered LEDs (6000°K)
- 360° rotation and 120° tilt
- Waterproof wireless remote control (65m range)
- Dual speed (slow/rapid)
- Weatherproof and UV resistant housing
- Fully sealed IP68 LED module
- Integrated joystick for total control
- Supplied with 2 control options:
- 1 x weatherproof wireless remote control
- 1 x hard wired remote with joystick for permanent fixture

Specifications:

- **Current draw:** 4.0A at 24V
- **Wireless remote distance:** 65m
- **Frequency:** 433.92MHz
- **Weight:** 1.9kg
- **Dimensions (LxWxH):** 149 x 181 x 169mm
- **Colour:** White

Note: Joystick control must be installed for wireless remote to function
